

THE REPUBLIC OF

ZAMBIA

SAFE. STABLE. SECURE.

A Strategic Gateway for Hellenic Investment
in Southern Africa

“Safe. Stable. Secure. The time is now.”

Rose Chizi
Honorary Consul of the Republic of Zambia
in the Hellenic Republic

Why the Republic of Zambia? Why now?

Improving fundamentals are strengthening confidence and creating an investment window.

4.3%

IMF projected real GDP growth • 2026

6.8%

Inflation • April 2026

4.4 months

Import cover / reserves

94%

Debt restructuring perimeter covered

For investors, the numbers point to one thing:

increasing stability • improving confidence • a window of opportunity

THE OPPORTUNITY IS THERE NOW.

Eight borders. One regional platform.

The Republic of Zambia sits at the centre of Southern and Central African trade routes.

**ANGOLA • DR CONGO • TANZANIA • MALAWI
MOZAMBIQUE • ZIMBABWE • BOTSWANA • NAMIBIA**

ONE INVESTMENT. MULTIPLE MARKETS.

A base in the Republic of Zambia can connect business to SADC and COMESA markets — and to major transport corridors reaching both coasts.

03 — CONNECTIVITY

Landlocked? Yes. Isolated? No.

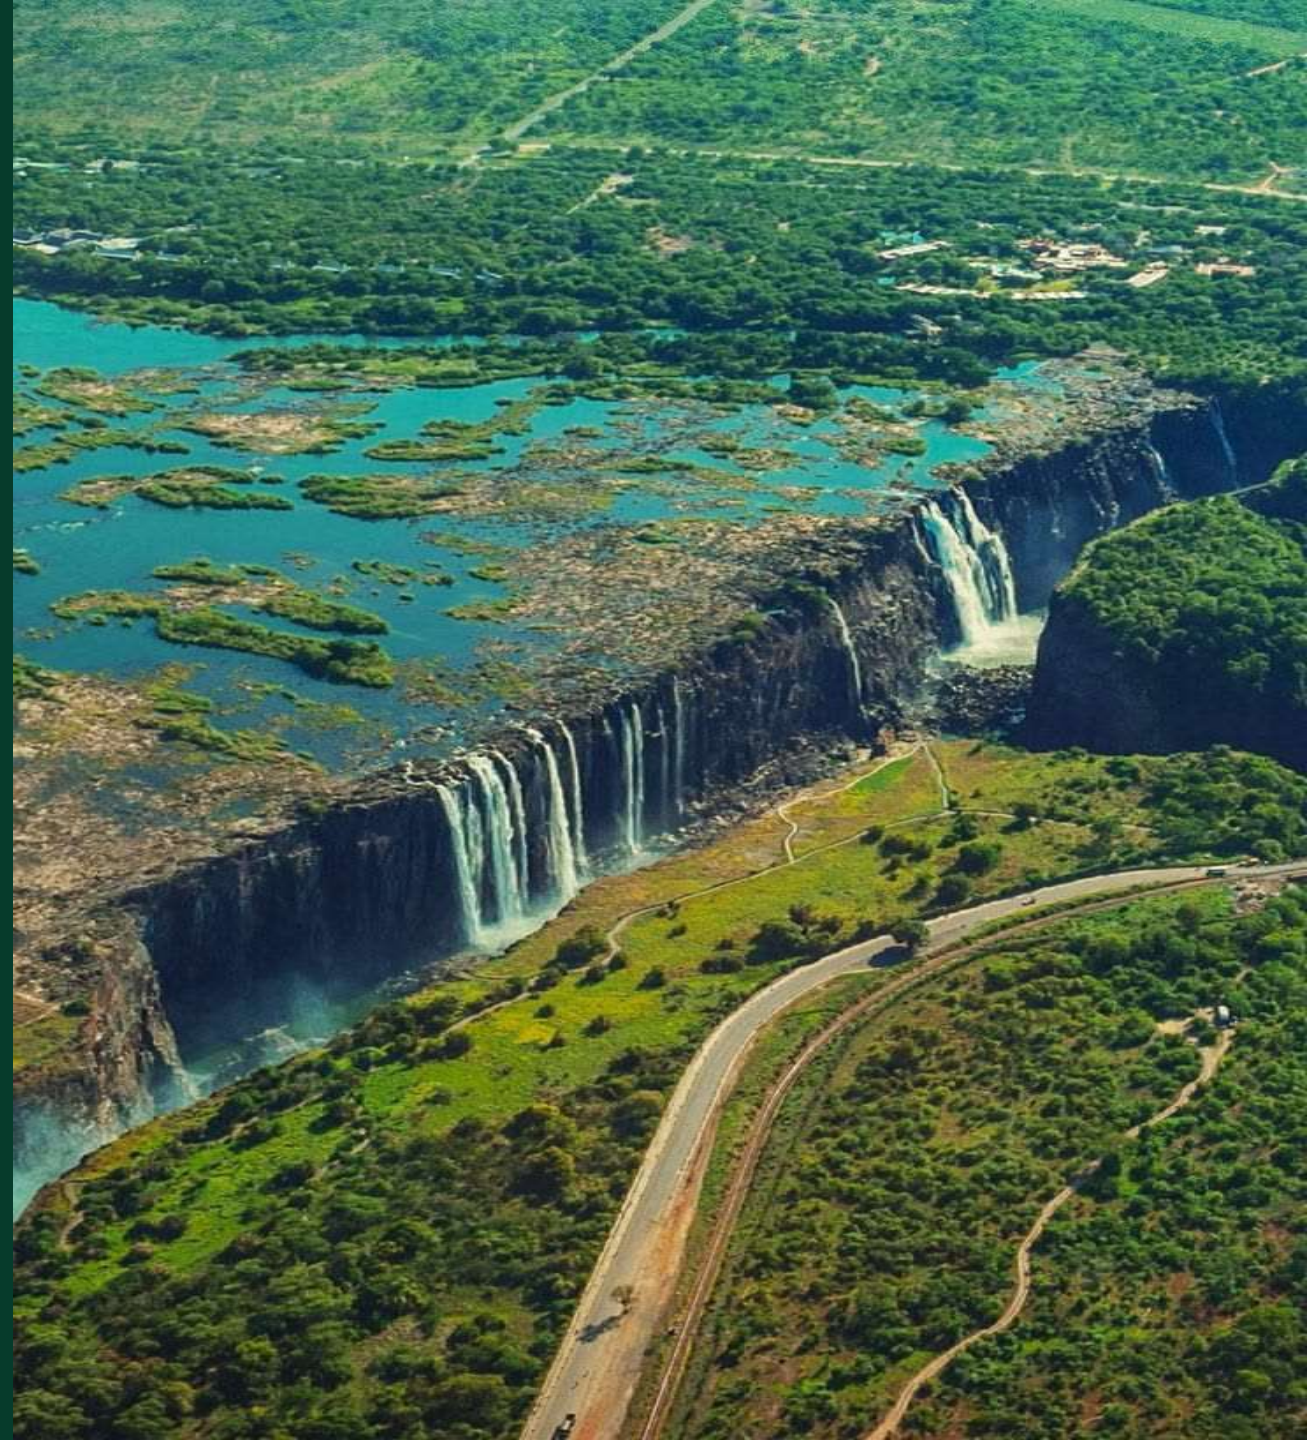

Corridors are turning geography into connectivity.

LOBITO CORRIDOR

A strategic Atlantic route linking the Copperbelt region toward Angola's Port of Lobito.

ATLANTIC ACCESS • COPPERBELT • LOGISTICS

The Zambia–Lobito extension is under development — a distinction that matters when we talk about future access.

Energy

Demand is strong. The opportunity is to build capacity, resilience and cleaner generation.

GENERATION

Solar, hydro and other generation opportunities can expand supply and diversify the energy mix.

GRID & STORAGE

Transmission, distribution, storage and efficiency create openings for technology and engineering partners.

INDUSTRIAL POWER

Mining, agriculture and manufacturing need reliable power — creating bankable demand around productive sectors.

**ENERGY IS NOT ONLY A SECTOR.
IT IS THE ENABLER OF EVERY OTHER SECTOR.**

Agriculture & agribusiness

~10% of arable land
is cultivated

The Republic of Zambia has land, water and regional demand — but much of the value chain remains open.

From farm to shelf: the opportunity is in the whole chain.

PRIMARY PRODUCTION

Commercial farming • irrigation • inputs

VALUE ADDITION

Food processing • packaging • cold chain

REGIONAL EXPORT

A platform for neighbouring markets

TECHNOLOGY

Mechanisation • precision agriculture • water solutions

Copper, critical minerals & value addition

The next chapter is not simply extraction — it is processing, supply chains and industrial value.

C

COPPER

U

MINING

Resource base

PROCESSING

Smelting • refining

MANUFACTURING

Cables • components

SERVICES

Engineering • logistics

VALUE ADDITION = MORE JOBS • MORE SKILLS • MORE LOCAL INDUSTRY

Beyond mining

The investment story is broader: tourism, infrastructure, manufacturing, construction and services.

TOURISM

Nature, wildlife and hospitality

INFRASTRUCTURE

Transport, water and urban systems

MANUFACTURING

Local production and value chains

CONSTRUCTION

Industrial and commercial development

SERVICES

Finance, technology and professional expertise

DIVERSIFICATION CREATES ENTRY POINTS.

Competition is already there

Major international investors are active. Hellenic companies should understand the landscape — and enter with a clear proposition.

CHINESE INVESTMENT

has established a strong presence across infrastructure, mining, energy and trade.

THE MESSAGE FOR HELLENIC BUSINESS

- ✓ Do not arrive as a spectator.
- ✓ Compete on quality, expertise and partnership.
- ✓ Choose sectors where Hellenic know-how is distinctive.
- ✓ Build local relationships and stay for the long term.

THE MARKET IS OPEN — BUT IT IS NOT EMPTY.

Why Hellenic business?

There is a natural fit between Hellenic expertise and the Republic of Zambia's investment needs.

ENERGY

Renewables • engineering • systems

AGRIBUSINESS

Processing • irrigation • food value chains

INFRASTRUCTURE

Construction • logistics • technical expertise

**THE OPPORTUNITY IS TO MATCH HELLENIC
CAPABILITY WITH ZAMBIAN DEMAND.**

A BRIDGE BETWEEN HELLENIC BUSINESS, ZAMBIAN CONSULATE AND ZAMBIAN OPPORTUNITY

PEOPLE CONNECT OPPORTUNITIES CREATE PROSPERITY

TRUST BUILDS PEOPLE

PARTNERSHIPS

BUILD BRIDGES

OPPORTUNITIES BUILD NATIONS

HELLENIC BUSINESS

EXPERTISE | INNOVATION | GLOBAL REACH

World-class expertise and technology

Experience in infrastructure, energy, shipping, tourism and agribusiness

Strong regional and international networks

A tradition of partnership with Africa

A proven ability to turn vision into reality

ZAMBIAN CONSULATE

CONNECT | FACILITATE | SUPPORT

A trusted partner in the Hellenic Republic

Facilitating dialogue and partnerships

Providing guidance, information and on-the-ground support

Linking business, government and strategic stakeholders

Promoting Zambia's opportunities and priorities

ZAMBIAN OPPORTUNITY

RESOURCES | MARKETS | GROWTH

Abundant natural resources (copper, cobalt and more)

Vast agricultural potential

Clean and renewable energy (hydropower, solar and more)

Strategic location and regional access (8 borders, SADC, COMESA and beyond)

A stable, reform-oriented economy with long-term potential

TOGETHER WE BUILD A STRONGER, MORE PROSPEROUS FUTURE

Zambia
The time is now.

THE TIME IS NOW.

SAFE. STABLE. SECURE.

“I invite you not simply to look at the Republic of Zambia,
but to come with me and discover it.”

REPUBLIC OF ZAMBIA

Investment • Partnership • Growth

THANK YOU

Rose Chizi • Honorary Consul of the Republic of Zambia in the Hellenic Republic
